Posing Benches by GPS

Benches are one of the most useful tools for event and group photography, these benches are lightweight, easy to use and very convenient to take on location.

They are available in any length and two different heights. 17" - standard chair height and 12" - pre-school, t-ball or standing height. Benches over 8' and those that fold in half (for even easier transport) come with 3 legs for stability. The legs fold flat with the bench and lock in the open or closed position.

• 12" or 17" height

- Any Length available
- Legs easily fold up or down and lock in position
- Legs have wide base for stability and are flat across the bottom to prevent sinking into ground

- Black Skirting is available at \$10 per ft

Portable - Crowd Control by GPS

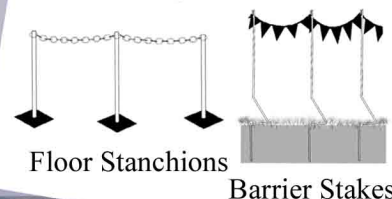

- Great Crowd Control
- Bags available for transport
- Fast, easy set up/compact storage

Barrier Stakes and/or Stanchions are great for crowd control! Because they can be used with rope, caution tape, pennants or chain, they are extremely versatile and suited to whatever event you've got scheduled. You can rope off the area with pennants at outdoor events or lightweight chain at more formal events.

Floor Stanchions base detaches from pole for easy transport and flat storage. Base plate sits flat on floor with no damage.

Barrier Stakes are quick to set up and take down because they are easily pressed into the ground with your foot.
